Locality Development Officer at darren.curtis@hscni.net or Tel: 07725232566

CYPSP
Children & Young People's Strategic Partnership

“Our Journey Through Disability” aims to connect parents, carers, services and organisations in the Newry and Mourne area to improve outcomes for children and young people with a disability and/or additional needs.

Please pass this on to any relevant contacts you may have: both families and services who would benefit from attending.

If your organisation provides a service for families with children/young people with a disability in the Newry & Mourne area, please contact me to secure an information stall to advertise your service on the day and to meet parents and carers.

This project is a co-production between parents and members of CYPSP's Newry Locality Planning Group and aims to make connections and identify how we can meet challenges faced by families and services
